# A NEW CHAPTER IN OUTDOOR LIGHTING

For years, Innovations Lighting has been at the forefront of design, blending timeless craftsmanship with forward-thinking creativity to bring exceptional lighting to homes and businesses. This legacy of innovation continues with the introduction of our newest Outdoor Collections, where style, versatility, and quality come together to elevate the spaces beyond your walls.

Designed to inspire creativity, these collections offer multiple finish options, a variety of glass styles, and a range of sizes, allowing each fixture to be tailored to your vision. Most families feature a full complement of designs, including hanging pendants, post mounts, and sconces, making it easy to create a cohesive look across patios, pathways, porches, and entryways. Crafted from premium materials, with many models Coastal Rated, these fixtures are built to perform beautifully in a variety of environments.

Combining thoughtful design with enduring construction, Innovations Lighting's Outdoor Collections deliver both aesthetic appeal and long-lasting durability, helping you create welcoming, well-lit spaces that extend the character of your home or project.

## **IL COASTAL RATED:**

Our Coastal Rated outdoor fixtures are made from EPMM, a durable polymer composite infused with ground stone, or marine grade aluminum. They are engineered for exceptional strength and durability in the harshest environments. The Coastal Rated collections offer a 5 year warranty on the finish.

## **FEATURES YOU CAN COUNT ON:**

At Innovations Lighting, every outdoor fixture is designed with both beauty and performance in mind. Our collections combine thoughtful details with enduring quality, ensuring your lighting is as reliable as it is stylish.

## **TRUSTED SUPPORT:**

Every fixture is backed by the Innovations Lighting customer service team, ready to assist you with product questions, installation guidance, and after-purchase support.

## **FULLY WET RATED:**

Wall sconces and post lights are crafted to perform in direct exposure to rain and snow, delivering dependable illumination no matter the season.
